OUR MISSION

To take the fear out of cancer, and replace it
with hope and strength!

We want to raise lots of money so we can fund
promising and ground-breaking cancer re-
search. Cancer shouldn't be a potential death
sentence, but something that can be cured.
Or at least make it as manageable as, say, hay
fever. Ambitious? Of course. But, hey – reach
for the stars and you might land on the moon.
